ARRIVAL

DEPARTURE

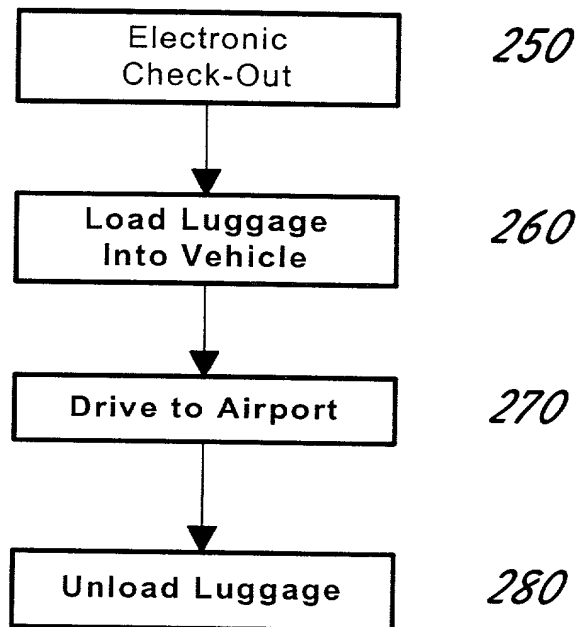

Fig. 2

FIG. 3 is a flowchart illustrating a process for providing a vehicle in a parking space associated with a room. The process begins with providing a vehicle in a parking space associated with a room (300). This is followed by accepting a reservation for the room and vehicle (310), transporting the traveler to the room location (320), receiving payment (330), and granting access to the room and vehicle (340). The process then branches into two paths: one leading to confirming the identity and authorization of the driver to operate the vehicle (350), and another leading to accepting an electronic check-out (360).
